We have spent the past 40 years studying the sociology of work, exploring the emerging technologies, developing innovative new materials, and creating new kinds of systems for new kinds of working. Those years of experience have culminated in our newest, evolutionary office system: Joyn.

Joyn Conference

Meeting and working have blended together. Conferences may incorporate digital projection, laptops, speakerphones, mobile phones, PDA's as well as traditional paper and pencils. The Joyn bench with embedded power and data makes a perfect surface on which to orchestrate contemporary meetings.

Joyn Single Bench

The Joyn Single Bench is the personal workplace for any decision maker in a collective environment.
